PRESENT

TOMORROW'S CATHOLIC: Re-Shaping OUR CHURCH

The Catholicism we have inherited sometimes seems inadequate for today's challenges and crises. This evening of presentation and dialog will help us to discover what to let go of that is inadequate and what to hold onto that is essential if we are to become a Church of responsible, adult Catholic Christians.

WITH

MICHAEL MORWOOD

Michael Morwood holds an advanced degree in Pastoral Ministry from Boston College and has more than 30 years of experience in retreat, education, parish and youth ministries in Australia. Most recently he has worked in adult faith formation, helping Christians to examine and articulate faith in ways that resonate with a contemporary understanding of our place in the universe.

**Two Notable Religious Leaders from the Los Angeles Area
